Environmental Measures

■ Measures Adopted at Inter BEE

In accordance with the environmental policy formulated by the Japan Association for the World Exposition, Inter BEE asks that all exhibitors, visitors and sponsors think about the contribution that they can make to create a recycling-oriented society. Inter BEE promote the “3Rs” (reduce, reuse and recycle) concept and try to reduce the generation of waste at Inter BEE exhibitions.

■ Cooperation Requested to Exhibitors

(1) Control the generation of waste (reduce)

Please consider what you can do to reduce the generation of waste. Keeping in mind the need to reduce industrial waste starting at the design stage for booth display, please avoid the need to carry out construction work at the exhibition site wherever possible by bringing pre-assembled or completed booth facilities to the site.

(2) Actively reuse recycled products (reuse)

Please actively use materials that can be recycled or materials that have already been recycled.

(3) Step up recycling of waste (recycle)

Please separate waste materials, as outlined below, as a means of increasing the percentage of recycled waste. Please deposit recyclable items in the special recycling bins that have been placed at the load-in gate at each hall of the exhibition venue. We ask for your cooperation especially with regard to the bringing in and taking out of large quantities of waste.

- Waste paper (cardboard, paper, pamphlets)
- Empty cans (empty aluminum and steel cans; this does not apply to empty spray cans or gas containers, which are nonburnable)
- Plastic bottles (please dispose after emptying contents)
- Burnables (food scraps, wood and paper scraps)
- Nonburnables (plastic waste, glass and metal scraps)

“Thorough separation of waste” is a practical step you can take to help recycle.

Waste Material Separation

Measures Adopted at Inter BEE

We ask exhibitors to remove waste generated from setting up and dismantling their respective booths, or to take responsibility for the disposal of such waste, including costs incurred. If an exhibitor should leave waste inside the exhibition venue, the exhibitor will be billed later for the cost of disposal.

Please separate waste materials as outlined below, to increase the percentage of recycled waste. Please deposit recyclable items in the special recycling bins placed at the receiving bays of each exhibition venue. We ask for your cooperation, especially with regard to bringing in and taking out large quantities of waste. We ask exhibitors to devise measures for reducing waste at booths and to make arrangements so that, if at all possible, cardboard, exhibition materials and other items do not require disposal when setting up and dismantling booths. You may contact the following office for further details on waste treatment within Chiba Prefecture.
