

Product **STM series**

The "scale through modularity" concept of NEXO STM makes it possible to build systems of various sizes with just four core modules and so this has raised the level of versatility possessed by one system to a totally new dimension. This series achieves sound quality and scalability that greatly exceeds previous systems regardless of the magnitude of the scale of the application. STM provides high grade and high efficiency solutions not found in previous systems from storage and configuration, through transportation and rigging, to wiring and amplification.

**System Configuration**

**■ Flying Speaker**

STM B112 x 4	236Kg
STM M28 x 9	333Kg
Flying Parts	57Kg
Speaker Cable	30Kg
Total	656Kg

**■ Ground Stack Speaker**

STM S118 x 6	510Kg
--------------	-------

**■ Amplifier**

NXAMP4x4

**NXAMP Channel assignment**

NXAMP4x4-1			
CH A	CH B	CH C	CH D
BTL / B112x2		M28 LFx3	M28 HFx3
NXAMP4x4-2			
CH A	CH B	CH C	CH D
BTL / B112x2		M28 LFx3	M28 HFx3
NXAMP4x4-3			
CH A	CH B	CH C	CH D
BTL / S118x2		M28 LFx3	M28 HFx3
NXAMP4x4-4			
CH A	CH B	CH C	CH D
BTL / S118x2		BTL / S118x2	

	Product Name	Manufacturer	Model Number
Speaker	Omni-purpose Module	NEXO	STM M28
Speaker	Bass Module	NEXO	STM B112
Subwoofer	Sub Module	NEXO	STM S118
Amplifier	Powered TDcontrollers	NEXO	NXAMP 4 x 4
