

INTER BEE IGNITION

Post digital native: Chase the front line of transforming media spaces!

► Venue; Exhibition Hall 6

The expressive world of media and entertainment is where evolution is accelerating without stop. New video, audio and live entertainment expression technologies are being born from decentralizing and diversifying media. We will showcase the possibilities and challenges of expression toward the next generation to suit the present day when media spaces are changing.

INTER BEE CONNECTED

Proposing a Fusion of Broadcasting and Communications with Exhibits and Presentations.

► Venue: Exhibition Hall 7

The ICT and media environment is expanding and changing on a daily basis. Against this back ground, media communication (including television broadcast ing) is welcoming an era of un precedented transformation. How will broadcasting change? What kind of possibilities will ICT bring about in media com munication? We will explore and showcase the new business models on the frontline of broadcasting and communication.

INTER BEE CREATIVE

Front Line of 4K, 8K and HDR Video Production Gathering of Creators Active on the Front-line

► Venue; Exhibition Hall 8

Methods and techniques of expres sion to stir up your creativity will be presented here. This will make your ideas even more beautiful and realistic while retaining their feel ing. We will create new excitement in content and creative.

- Resting Place
- Mobile Charging
- Food Stand
- Cafe
- Restroom
- Elevator
- Photo Spot

Inter BEE will respond to disasters in accordance with its basic principle of "prioritizing the safety of visitors and exhibitors." We appreciate your cooperation.

- Please follow announcement and management office staff's instructions when a disaster strikes.
- As you find unidentified object, please contact the management office staff.
